EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 5-12 and 20.

Allowable Subject Matter

Claims 1, 2, 4, and 14-19 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including said emitter short region extending as far as a chip end in edge regions of the IGBT. Although Figure 6 of Nakagawa (US Pat. 4,689,647) appears to disclose an emitter short region 21 extending to a chip end, the portion shown in Figure 6 is not the entire chip. The wavy lines shown as the side edges in Figure 6 indicated the actual chip extends farther than shown in the figure. Furthermore, Nakagawa also does not disclose or suggest an annular high-voltage edge as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
